M FLOATS

FISHING FLOATS MADE WITH PASSION

Mfloats is a family company that from the very beginning aims to be recognizable by the exceptional quality of its products in the market. Our main goal is to satisfy the users of our products, both in the country and throughout Europe. The policy of our house is oriented towards fulfilling the demands of our clients. Our workshop is equipped with state-of-the-art float production machines with a capacity of 30,000 to 50,000 pieces per month, and certainly with a tendency of further growth. For the production of our products, we use balsa wood of controlled weight and density, HQ high density foam and varnishes of Italian renowned manufacturers that are produced exclusively for this purpose. In addition to the construction of floating bodies, we pay special attention to the process of painting and varnishing, as processes that play an important role in the quality and appearance of floats. When processing, we take into account external factors (temperature, degree of humidity, light) as factors that significantly affect this part of production. Every detail is important. The constant support of technologists from the companies with which we cooperate gives us the opportunity to constantly improve our products and create new conceptual solutions in order to fulfill the highest quality standards.

All our products have the EUR 1 Certificate and we can provide support to all our customers from abroad related to transport and customs procedures.

The image is a vibrant collage. At the top, numerous fishing floats of various colors (red, yellow, blue, black, green) are shown against a white background. Below this, a large, detailed float with a red top and a white body featuring the 'M FLOATS' logo is prominent. The background is split into sections of bright blue sky and water. In the bottom right, a photograph shows two men fishing on a lake. The overall design is dynamic and colorful, emphasizing the product's use in fishing.

**FISH
MORE
WORRY
LESS**

The logo consists of a red circle containing a white letter 'M', followed by the word 'FLOATS' in a red, sans-serif font. A small registered trademark symbol (®) is at the end.

M FLOATS®

CARP FLOATS

Designed for precision and performance, our carp floats feature expertly balanced shapes for maximum sensitivity and stability. Made from high-quality foam and durable composites, they offer excellent buoyancy and long-lasting reliability in all conditions. Perfect for anglers who demand accuracy and durability.
